

Linbrooke Services Ltd. are a leading provider of mission-critical solutions in telecoms, power and signalling – predominantly in Rail, Utilities and Subsea environments.

As a Principal Contractor (PC) for Network Rail and an Independent Connection Provider (ICP) with National Electricity Registration Scheme (NERS) accreditation, we have world-class multifunctional in-house design and build capability. This enables us to provide a comprehensive service, from **design, installation, test, commissioning** and **integration** through to **training** and **resourcing**, ensuring exceptional time and cost savings on all our projects.

We fully support and uphold all aspects of the Modern Slavery Act 2015 in accordance with our industry regulations.

We work in partnership with a broad range of national and international suppliers and therefore see this as our primary focus for managing and monitoring any potential contravention of the legislation.

We undertake all reasonable and practical steps to ensure that both our own standards and the legislative requirements to uphold the Modern Slavery Act 2015 are met throughout our business and our supply network.

We will assess any instances of non-compliance on a case-by-case basis and will then tailor remedial action appropriately.

We will only trade with partners and suppliers who, through a process of due diligence, can comfortably demonstrate their compliance and commitment to the Modern Slavery Act 2015.

This policy will be reviewed annually.
